COVID-19 didn’t create poverty. It did make it worse.

Communities already struggling were hit harder. Now they have even further to rise. Home-by-home, street-by-street, community-by-community, United Way is committed to supporting Triangle residents through thick and thin.

But we can’t do that without you.

With your donation, we can provide both immediate and long-term solutions to help families and individuals overcome poverty and increase social mobility through affordable housing, quality education, stable employment, and more.

Help us build a better way forward for everyone in the Triangle.
